1. Removed parts

   1.1. No integration in heuristic

2. Added parts

   2.1. Evaluation of multiple prediction models
   2.2. Comparision of different predictions
      2.2.1. Pointprediction
      2.2.2. Intervalprediction
   2.3. Use Case
      2.3.1. Still integration into heuristic but multiple different heuristics

3. Important Points:

   3.1. Time of VNF startup
   3.2. Confidence of predictions
   3.3. Ranges of prediction
